Re: WT Docket 94-102  
TTY Quarterly Report 2003  
Cellular South Licenses, Inc.

Dear Ms. Dortch:

On behalf of Cellular South Licenses, Inc. ("Cellular South") this letter is submitted to report the status of the company's implementation of the capability to transmit 911 calls from text telephone ("TTY") devices. Cellular South's Petition For Waiver And Extension of Digital Wireless 911 TTY Requirements requested an extension of time to comply through December 31, 2003.

Cellular South provides TDMA digital wireless carrier operating cellular radiotelephone and personal communications services in multiple markets. The company is implementing and has begun to operate a CDMA overlay as an alternative digital air interface technology.

TTY testing is now complete and TTY services are fully functioning at Cellular South's digital switches at Jackson, MS (both Nortel and Lucent switches), and at Memphis, TN (Lucent). The switch at Mobile, MS is expected to become TTY functional on about August 9, 2003, upon upgrade of the Nortel switch to MTX10.
